- a. **Parking Regulation Review** – The Parish Council disagreed with the proposals to be put by the Canterbury City Council Transport Team to the Joint Transportation Board in February. The proposal R04 for a double yellow line down one side of Filmer Rd would not solve the problems of the area and would cause more problems in other parts of the village as cars needed to be parked somewhere. Similarly the council was against proposal R07 to put double yellow lines at the corner of Union Rd and Dering Rd. This was unnecessary. The proposal R09 for double yellow lines at the junction of Aunt Betsy's Hill and the High Street was not the preferred option of the Parish Council. It would result in the loss of many parking spaces. The council had asked for kerb extensions to be placed at this and other junctions along the High Street. The proposal to place double yellow lines at the junction by the recycling point at Town Hill R10 was regarded as completely unnecessary. There had never been a parking problem in that area. The council expressed concern at the assumption by the city council that increasing the number of yellow lines in the village would solve its parking problems. There were serious difficulties over enforcement and it was felt that the proliferation of yellow lines was inappropriate in a rural area. It was agreed to write to the city council outlining the Parish Council's objections to the proposals and asking why previously agreed measures had not been implemented. The issue of rumble strips for the A2 slip road would also be raised. A copy of the letter would be sent to Cllr Michael Northey.

- c. **Western Ave/Mill Lane junction** - It was reported that the contractors repairing the gas mains in Brewery Lane and the High Street had been dumping their equipment on the grass verge at the corner of Western Avenue and Mill Lane. This had damaged the verge and it was agreed to write to Morrisons asking that they made good the verge once the work had been completed. **Action; Clerk**
